

## Update screws when using the Sentinel Armor with LED light kit

### 34477 & 34490

If installing the **34477 Armor** with our **LED light kit 34490** please call or email PowerMadd for the upgrade screw kit. Replace the 4 short plastic screws from your 34477 kit and use these upgraded screws in the vent hole locations show in the photo below. These screws allow clearance for the LED light kit. 651-462-8465 or email [techsupport@powermadd.com](mailto:techsupport@powermadd.com)
