

## Update screws when using the Race Flare with LED light kit

### 34277 & 34290

If installing the **34277 Armor** with our **LED light kit 34290** please call or email PowerMadd for the upgrade screw kit. Replace 4 plastic screws that would be installed with the 2 plastic upgrade screws. Install in the vent cover location show in the photo below. You will not be installing a screw into the inside location due to clearance issues with the LED light kit. 651-462-8465 or email [techsupport@powermadd.com](mailto:techsupport@powermadd.com)
